

# 'SHOW' WITH EVIDENCE

### Learning Intentions could include:

- Know how to support an argument with evidence.
- Understand that evidence can be used to 'show' rather than tell.

Student name: .....

Topic: .....

Pick the least convincing argument in the text and back it up! Brainstorm evidence that 'shows' to support the argument and convince the reader.

| Type of evidence   | Argument: ..... |
|--|-----------------|
| Personal examples or observations  |                 |
| Examples from other sources, e.g. books, websites, etc.                    |                 |
| Precedents, e.g. an earlier event or action that can be used as an example |                 |
| Descriptive details  |                 |
| Visuals, e.g. graphs and infographics                                      |                 |

Which ideas will you use in your text? (Circle or underline them.)
